

EDUCATION

University of Southern California (USC) | Business Administration | JAN 2021 – Present

I am one and a half years into my degree at USC.

Relevant Coursework: Business Organization and Leadership, Marketing Fundamentals, Business Statistics, Business Calculus

Weber State University (WSU) | Bachelor of Science | 2018 – 2020

During high school, I was involved in an Early College program and graduated with my associate degree.

Berkeley (UCB) Coding Bootcamp | Full Stack Developer | March 2022 – Present

I recently started a coding boot camp at Berkley, learning front-end and back-end developer skills.

Ongoing Skills: HTML, CSS, Git, JavaScript, jQuery, Node, Web API's, Express, SQL

WORK EXPERIENCE

Beans & Brews | Shift Leader, Barista | JAN 2020 – JAN 2021 & SUMMER 2021

I have spent a total of 1.5 years as a shift lead/barista at Beans & Brews. During my employment, skills I learned include:

Client-centrism: Placing the customer is of the utmost importance to the business and focusing on customer satisfaction.

Teamwork: Allocating jobs to multiple co-workers, effectively communicating, and multi-tasking

Leadership: Mentoring new employees on job essentials: customer engagement, making drinks, operating POS systems / cashiering.

PROJECTS

PRODUCT DEVELOPMENT / MARKETING | USC | FALL 2021

In my marketing class, my team and I scored the highest on our project, Yerba IV's. We created a product for Liquid IV and Guayaki and presented it in a mock demonstration. We did market research on current companies, segmented our market, developed product promotion prototypes, and created a proposition.

CONSULTING | USC | SPRING 2021

My team, the Tree Stumps, did a consulting project with USC's advising board. We conducted interview sessions and created surveys for the advisors, collected the data, probed problems within the board, and offered research-driven solutions based on in-class concepts.

ACTIVITIES

APASS / CIRCLE | USC | FALL 2021

Asian Pacific American Social Service: I met each week with other students to discuss ethnic issues faced by the Asian minority, share our personal experiences, and evaluate probable solutions that USC and our community can progress towards.
